

MORSELLI E MACCAFERRI operates in the mechanical engineering sector.

For over 35 years now, we have been manufacturing multi-functional machines and products for the snow, cleaning and fire-fighting industries www.morsellimaccaferri.com

We have always placed special focus on the professional skills of the human resources working inside the company.

Our conviction is that by means of the continuous upgrading and updating of its workers, the company will always be able to achieve the very highest standards of customer satisfaction.

As a result of the extension of its organisation, the company is interested in making contact with qualified persons interested in working in a constantly-evolving environment.

The professional persons we are interested in contacting are:

- **Multi-firm agents for uncovered areas.**
